

Library Facilities

The college library is fully automated using E-Granthalaya, an open-source Integrated Library Management System. It features a comprehensive catalog system that enables users to search by book title, author, subject, or accession code.

- Students and staff can track their book issuance history with personalized login credentials.
- Access to e-journals and e-books purchased by the college library is available to all users.
- E-resources, including thousands of books and academic journals, are accessible through the INFLIBNET N-LIST subscription.
- Indexing of periodicals supports research activities efficiently.
- Physical access to M.Ed. dissertations, Ph.D. theses, and reference material is available on-site.
- Research scholars from other institutions can view dissertation titles online via the college website.
