Farce

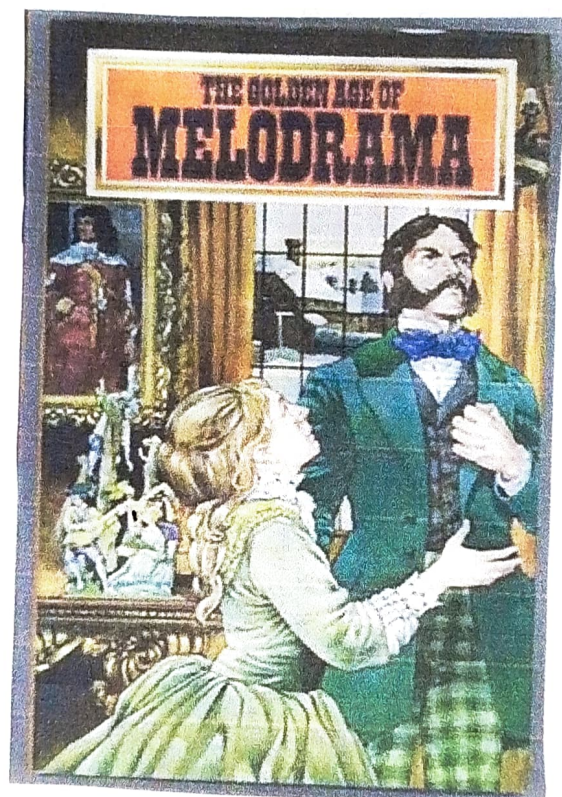

→ Farce is sub-category of comedy, characterized by greatly exaggerated characters and situations. Characters tend to be one dimensional and often follow stereotypical behaviour.

Tragic Comedy

→ Tragic comedy is play that starts with a Tragedy and ends with happy ending.

Musical

→ In musical theatre, that story is told not only through dialogue and acting but through music and dance.

Melodrama

→ Melodrama is another type of exaggerated drama as forced characters tend to be simplified and one dimensional. The story-line of the classic melodrama typically involves a villain, heroine and a hero who must rescue the hero from villain.

Playlet

→ A play is a form of literature written by a play writer, usually consisting of scripted dialogue between characters intended for theatrical performance rather than just reading. Plays are performed at a variety of levels, from broad-way, off-broadway, regional theatre, to community theatre as well as university or school productions.

1. Weather

Weather is hot,
weather is cold,
weather is changing
As the weeks un-fold.

Skies are cloudy,
skies are fair,
skies are changing
In the air.

It is raining
It is snowing.
It is windy
with breezes blowing.

Days are foggy,
Days are clear,
weather is changing, Throughout the year!

Nature is might

Nature is strong,

Nature is beauty,

Nature is moddy.

Nature is smart,

Nature is blue,

Nature is green,

Nature is true.

Nature is you,

Nature is me,

Nature will forever be free.

3. SCHOOL

School is a fun and educational place.

There is a Fresh turn every day.

Make plans to meet up with Friends, learn together, and have a great time.

We read, write, and occasionally play.

School is enjoyable every day because the teachers are so nice and supportive.

There is something new to discover every day.

5. COLOUR SONG

Red, red, red,
touch your head.

Blue, blue, blue,
tie your shoe.

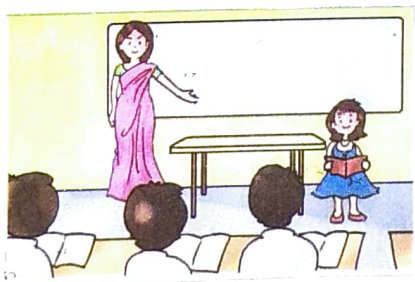

Brown, brown, brown
touch the ground.

White, white, white
take a bite.

Black, black, black,
touch your back.

Purple, purple, purple
draw a circle.

Gray, gray, gray,
shout hurry.

RAHUL → Sir discipline means following rules and being responsible.

MR. RAVI → Excellent!

ANITA → Sir, does coming late count as "creative discipline"?

MR. RAVI → Priya, your brain isn't tired - it's just charging slowly!

(Class laughs)

SCENE 3 : THE PRINCIPAL ENTERS

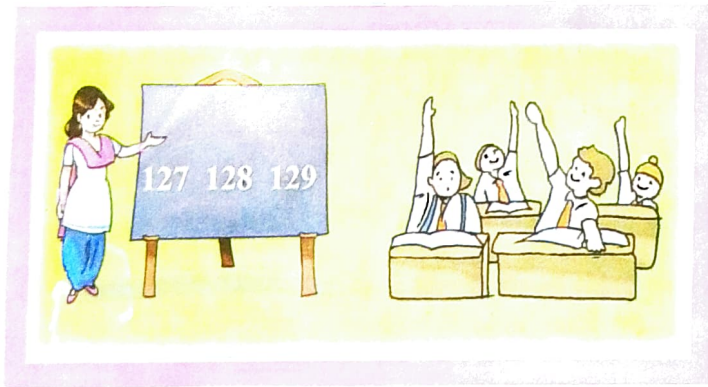

PRINCIPAL → Good morning, everyone. I hope our new teacher is adjusting well.

ANITA → Yes, ma'am! He's funny and scary at the same time!

MR. RAVI → Thank you, I take that as a compliment.

PRINCIPAL → That's great. Remember, Students, learning is not about fear - it's about respect and curiosity.

MR. RAVI → Exactly! And from tomorrow, Anita will lead the morning discipline round!

Numbers, Numbers all around.
Everywhere they can be found.

Numbers tell how old I am.
And how many people in my fam
How much I weigh and just how
tall.

where I live, and that's not all!

Numbers are a part of me.

Moneytime and history.

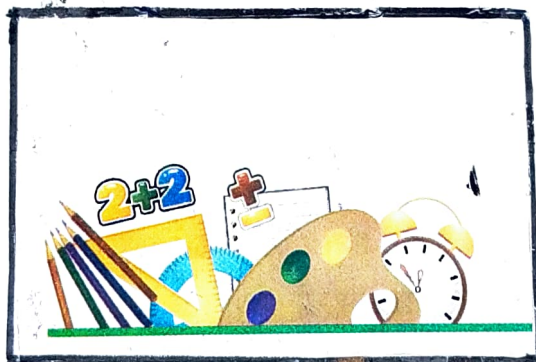

when to wake up and when to
Eat.

what size shoes to by for my
Feet.

How ~~much~~ money something
costs.

A number to call if my dog gets
Lost.

I don't know where I would be,
if numbers weren't a part of me.

Math, the language of the universe
So wise, A Subject that brings joy to
the Curious mind's eyes.

With numbers and symbols,
you Create a world so grand,
Helping us understand the patterns
in your hand.

From Simple addition to Complex
Calculus, You lead us on a journey
Full of logic and us.

So here's to you,
dear math, our constant guide,
A Subject that will Forever by our.

Mathematics is Full of fun

With so much to learn

Profits are added

While losses are Subtracted

Degrees are multiplied

And percentage is divided

Geometry is full of mystery

Algebra has a big history

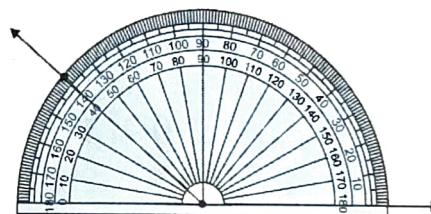

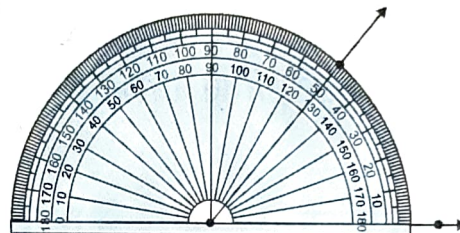

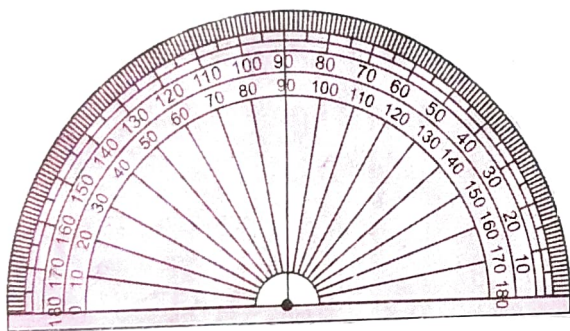

Integers as different as brothers

Lines are parallel

Angles are similar

Maths is necessary in life

Without it, It is difficult to survive

5. "Dear Math"

I quit trying to find your x .
Can't you see she moved
on?!

And don't you dare ask me
 y !

So sick and tired of trying
to solve your problems.

Sigh... When will you stop
acting like a pest and grow

up and solve your own
damn problems?!

Title: Math in Real Life

SCENE 1: THE CLASSROOM

Miss Neha: → Good morning, everyone!

STUDENTS: → Good morning, ma'am!

MISS NEHA: → Today, we are going to learn why math is important in real life.

RAVI: → Ma'am, but why do we even need math? I don't think I'll ever use algebra to buy vegetables!

MISS NEHA: → Oh really, Ravi? Let's test that theory.

SCENE 2 : THE REAL-LIFE MATH TEST

MISS NEHA → Imagine you go to the market with ₹500. You buy 2 kg of rice at ₹60 per kg and 1 litre of oil for ₹120. How much money will you have left?

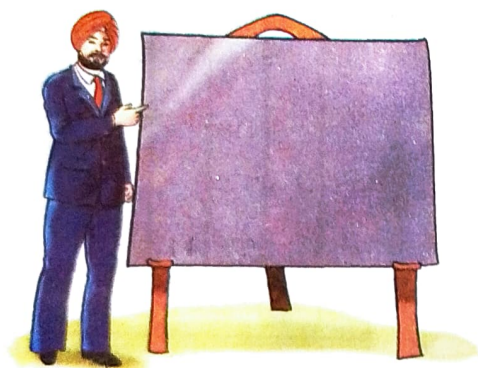

RAVI → Umm.... 500 mins 60.... minus... wait, 60 times 2 is.... ma'am, can I use my calculator?

MISS NEHA → No, Ravi. Use your mind calculator.

ANITA → Ma'am, total cost is $(2 \times 60) + 120 = 240$. So he'll have ₹260 left.

MISS NEHA → Correct, Anita! see Ravi? Math helps you know if the shopkeeper is giving you the right change!

RAHUL → Ma'am, I use math too - when I count how many samosas I can buy with ₹50!

SCENE 3 : THE PRINCIPAL JOINS

PRINCIPAL → What's happening here miss Neha?

MISS NEHA → We're learning here how math helps us in daily life, ma'am.

PRINCIPAL → Excellent! Students, remember - math is not just numbers. It teaches us logic, reasoning and problem-solving.

RAVI → I guess math isn't that scary after all. It's like a friend who helps us think smart!

RAHUL → Yes ma'am, especially when we calculate discounts on shopping day!
(Everyone laughs)

PRINCIPAL → That's the spirit! Keep learning and keep calculating!

Message: "Mathematics is not about numbers; it's about thinking logically and solving real-life problems."
